

Change of Address Policy for Skills Assessment applications

ACWA posts assessment outcomes for Skills Assessment applications by registered mail. On a regular basis the mail is returned or not received by an applicant due to a change in postal address. Any person who has lodged their assessment with ACWA, changes their postal address and does not contact ACWA to provide a current address before assessment outcomes are posted will attract a fee of \$20 for postage and administration. This fee will be required in order to post the assessment outcomes to the applicant at the new address.
