SECTION 1

Accreditation guidelines

Introduction

ACWA accreditation signals quality assurance for potential students and indicates that students will have access to adequate and appropriate resources, including teaching staff. Graduates from an accredited course are work ready and well equipped to provide quality services to the community.

These guidelines outline the obligations and requirements to be met by education providers in order to gain and maintain accreditation for **diploma and higher education courses**.

The accreditation process involves assessing the course (content, duration etc) as well as the campus (teaching staff suitability, resources). For this reason, the accreditation applies to a course at a specific campus. If students complete the same course at a different non-assessed campus they cannot be considered to have undertaken an ACWA accredited course.

Accreditation will only be granted to courses at AQF diploma and higher level that have ASQA or TEQSA accreditation and meet the guidelines contained in this document.

Education providers will need to submit an application, pay the relevant fees and meet all requirements to obtain ACWA accreditation. To maintain this accreditation providers will need to meet the ongoing conditions including paying annual registration fees and submitting annual registration, renewal or course upgrade forms when applicable.

Requirements

These requirements identify the obligations with which a diploma or higher education course must comply to achieve and maintain ACWA accreditation. An education provider must agree to comply with the ACWA requirements in seeking to conduct an accredited course.

Where the purpose of the course is to provide skills for remote communities and/or specialised community services programs the provider may submit a variation request to ACWA.

1. Minimum qualification and duration

- a) The minimum qualification for which accreditation will be granted is an AQF Diploma delivered over a minimum of two academic years (18 calendar months) of full time study (or part-time equivalent).
- b) Courses which include a **certificate** level qualification packaged into the **diploma** delivered over a total of two academic years can be granted accreditation if the ACWA packaged qualifications requirements are met.
- c) Where a diploma course is delivered to employees in a community sector workplace the course must be delivered between 12 – 18 months. For additional requirements for workplace delivery see *Section 3. Mode of delivery*.
- d) Bachelor degree level courses must be delivered over a minimum of three academic years) of full time study (or part-time equivalent).
- e) Post-graduate courses must be delivered over a minimum of two academic years) of full time study (or part-time equivalent).

2. Core content

- a) An accredited course must include the following core content:
- (i) society (including individual and family roles)
 - (ii) community, social and political structure and function
 - (iii) individual human structure and function, including psychological, physical and social aspects
 - (iv) general and specialised welfare services and welfare systems
 - (v) work with individuals, families, groups and communities
 - (vi) communication, interpersonal and basic counselling skills
- b) A course must include a minimum of 400 hours of supervised fieldwork placement which complies with ACWA guidelines. See *Section 2 - Fieldwork placement requirements*.
- c) Where an education provider offers a Certificate IV packaged into the diploma the electives and fieldwork placement components must be delivered and assessed at AQF level 5 or above. See *Section 3 - Packaged qualifications policy*.
- d) ACWA can explore accreditation for a number of courses within the community services training package. For some of these courses ACWA has determined certain electives that need to be run for the course to allow students to meet practice standards. These are outlined below; any variation to the structures should be discussed with ACWA. If the name of the course is not listed, please contact ACWA to see if it falls under our scope.

SECTION 2

Fieldwork placement requirements

Background

Fieldwork placements are an important part of a student's education allowing them to experience the frontline tasks of a community worker and providing the opportunity to develop the practical skills needed in the workplace. A fieldwork placement should allow a student to integrate theory into practice through a range of community and human services experiences.

Fieldwork placements are neither volunteer nor observational placements, as they involve:

- specific types of tasks;
- supervision by appropriately qualified supervisors; and
- contact between the education provider and the agency at which the fieldwork placement occurs.

Fieldwork placements must be conducted in accordance with these fieldwork placement requirements to ensure graduates from an accredited course are work ready and well equipped to provide quality services to the community.

This section outlines the obligations and requirements that must be met by education providers in relation to fieldwork placements to gain and maintain accredited course status.

ACWA reserves the right to vary the Fieldwork placement requirements from time to time.

Requirements

1. Responsibilities of education providers

Education providers must:

- a) Ensure there is a suitably qualified and experienced fieldwork placement coordinator
- b) Ensure that there are sufficient fieldwork placement supervisors for the numbers of students
- c) Ensure that qualification of the fieldwork placement supervisor is equivalent to or higher than the qualification level they are supervising and that this qualification is in a welfare or community work-related discipline
- d) Ensure that a fieldwork placement supervisor has three year's broad and relevant practical experience (post-qualification) in the community services industry
- e) Ensure that all enrolled students are provided with fieldwork placements which comply with the *Fieldwork placement requirements*.
- f) Arrange fieldwork placements within the designated course duration and in line with the course delivery structure

- g) Monitor and assess the appropriateness of each fieldwork placement, having regard to:
- (i) the qualifications of the agency supervisor/s;
 - (ii) the capacity of the agency supervisor/s to provide adequate supervision to the student;
 - (iii) the progress of students undertaking the fieldwork placement;
 - (iv) any complaints made by the agency, agency supervisor/s or the student in relation to the fieldwork placement; and
 - (v) relevance and skill level of placement tasks in relation to professional community work practice.
- h) ensure the agency has sufficient information about these fieldwork placement requirements prior to the commencement of a placement.

2. Fieldwork placement specifics

Fieldwork placements must:

- a) Be for a minimum of 400 hours duration in two separate placements
- b) Not be less than 140 hours in duration in any one fieldwork placement
- c) Not occur in the first semester of the accredited course to ensure that students are exposed to some of the underpinning practical and theoretical concepts prior to their first fieldwork placement
- d) Occur at least one term apart to ensure that appropriate classroom instruction occurs to facilitate adequate integration of learning and practical experience
- e) Occur during normal agency hours when agency staff are present
- f) Not require a student to work more than eight placement hours per day
- g) Occur for a minimum of two full days per week
- h) Vary significantly, in context and role, between each placement (that is, students should not undertake similar tasks or be engaged with similar clients)
- i) Each occur in a different field of practice with a different agency supervisor
- j) Have a formal written agreement prepared which details the tasks, roles and responsibilities to be undertaken by the student; this agreement must be signed at the beginning of the placement and signed off at the end of the placement by the student, the agency supervisor, the task supervisor (if applicable) and the fieldwork placement supervisor.

3. Fieldwork placement supervision

To ensure that a student obtains the most benefit from a fieldwork placement, the education provider must ensure that the supervision in place at the agency is of an appropriate level as follows:

- a) The supervision of the student in the agency is to be oriented to the student's educational goals.
- b) The agency supervisor must work on the majority of the days that the student attends the agency, to ensure continuous monitoring of performance and professional progress.
- c) The agency supervisor must have an educational qualification in a welfare or community work-related discipline that is equivalent to or higher than the qualification level they are supervising plus a minimum of at least three years practical experience in a community services setting including at least 2 years post-qualification experience.
- d) For diploma courses, a task supervisor must have a minimum of certificate IV level qualification in community services and have at least three years of practical experience in a community services setting. For courses at bachelor degree and above, a task supervisor must have a minimum of diploma level qualification in community services and have at least three years of practical experience in a community services setting .
- e) An agency supervisor can only supervise up to three students under direct supervision at the same time if:
 - (i) they are employed on the days and times that the students are present;
 - (ii) supervision is a normal part of their role;
 - (iii) they have responsibility for the same duties and functions of the agency if students were not attending; and
 - (iv) no more than three students are on placement at the agency at the same time.
- f) An agency supervisor may only supervise more than three students where:
 - (i) the agency supervisor's role as defined by their position description is that of a student supervisor; and
 - (ii) where each student is assigned a suitably qualified task supervisor.

4. Liaison

Liaison visits provide a student with the opportunity to raise concerns or ask for external assistance in relation to the fieldwork placement, while also giving the agency an opportunity to provide feedback on the capabilities of the student.

- a) There must be a minimum of three agency liaisons per student for each fieldwork placement. Liaison may take a variety of forms and may include but is not limited to face-to-face meetings, video conferencing and phone. There should be at least one face-to-face, teleconferencing or video conference meeting.
- b) Face-to-face, teleconferencing and video conferencing must involve the student, the agency supervisor, the task supervisor (where applicable) and the fieldwork placement supervisor.
- c) The purpose of liaison is to discuss, facilitate and evaluate the educational progress of the student and to resolve any problems which may have arisen during a placement.

5. What students should gain from a fieldwork placement

Fieldwork placements should be used by students as an opportunity to experience different types of community work, while also using classroom-based learning in a workplace setting.

- a) Fieldwork placements should provide a student with the opportunity to demonstrate their increasing ability to operate as a 'work-ready' community work practitioner.
- b) A fieldwork placement should require a student to integrate theory and practice in the areas of:
 - individual and group assessment
 - early intervention
 - casework
 - case management
 - client services
 - program planning and development
 - family welfare and support work
 - advocacy and support work
 - community development work
 - community worksocial welfare work.
- c) To ensure that students obtain a hands-on experience of community welfare work, no more than 5% of the hours in each fieldwork placement may be occupied with non-community welfare related activities, such as:
 - administrative duties except where they directly relate to the student's position and responsibilities
 - food delivery
 - food preparation
 - personal care activities
 - domestic duties (including cleaning the agency premises)
 - respite
 - childcare
 - entertaining clients
 - recreational or leisure activities (without a focus on the psycho-social aspects of client engagement).

6. Credits/RPL placement

- a) Students may seek recognition of prior learning (RPL) for earlier or current work experience in relation to one fieldwork placement.
- b) Where no RPL or credit is obtained, one placement may be undertaken in a student's current workplace, however, it must comply with *Fieldwork placement requirements*.

7. Fieldwork placement reports

- a) Students will be required to complete a written report about each fieldwork placement. The fieldwork placement report must:
 - (i) clearly outline details of the tasks (duties and responsibilities) the student undertook whilst completing their fieldwork placement;
 - (ii) provide a reflective and analytical overview of the fieldwork placement;
 - (iii) provide evidence that the student has been able to correlate their classroom learning with their fieldwork placement experiences; and
 - (iv) be written in the student's own words and must not include any references from teachers, other students or from public documents such as agency websites, brochures etc., unless the student cites and acknowledges the reference source.
- b) Supervisors must not insist on changes to the report; however:
 - (i) Where the report reveals a deficiency in the fieldwork placement, the agency supervisor and/or fieldwork placement supervisor may make appropriate comments and indicate what action has been taken to remedy the deficiency and/or reporting inaccuracy.
 - (ii) The agency supervisor (including the task supervisor where applicable) and fieldwork placement supervisor and the student must each sign and date the report showing they have read it, and that it broadly captures the experience of the student on the fieldwork placement.

ACWA has developed a fieldwork placement completion form which education providers may use or adapt as a fieldwork placement report template.

8. Exceptions

- a) Any variation to the fieldwork placement requirements must have prior written approval from ACWA.
- b) A detailed written submission to vary the fieldwork placement requirements must be submitted to ACWA as soon as the need for a variation is discovered.

SECTION 3
